WORK EXPERIENCE

Application Developer, React.js Developer March 2020 – Present

IBM, Baton Rouge, LA

- Completed 25 projects through Learning & Knowledge portfolio as UI developer. Projects implemented via Carbon Design System and React.js.
- Team of three, including one Visual Designer and one Lead Education Director.
- Worked closely with the clients by providing regular updates and implementing feedback through web meetings.
- Helped other UI developers with their projects, provided feedback and work arounds with proprietary JavaScript framework, implemented custom interactions, and streamlined dynamic components for future developers within Learning and Knowledge portfolio to implement.

Teacher Assistant October 2019 – March 2020

Operation Spark, New Orleans, LA

- Worked in classroom and via Slack to provide explanations, code reviews, and any other miscellaneous code and environment related issues.
- Helped guide students towards solutions using JavaScript.
